Project Objective

As Bangladesh is a Muslim majority country, ASEAB started this project with an objective to establish and promote Islamic sharia-based Business & Investment. It aims for women empowerment by enhancing skills and income of underprivileged women entrepreneurs.

Project Activities

The project activities start with group formation with the listed women. According to the requirement of the entrepreneurs the investments are allocated after analyzing the business situation, and considering the strengths & weaknesses. After signing agreements with the entrepreneurs, the allotted finances are disbursed through bank accounts or the required materials for businesses are provided to the beneficiaries. Various skill-enhancing training courses are arranged for empowering the community to earn more for their better life.
