

FOR A JUST SOCIETY

The Association for Socio-Economic Advancement of Bangladesh (ASEAB) is a non-government, non-political, and voluntary development organization founded and run by a group of committed professionals, social workers, and multi-disciplinary experts. For over 30 years, ASEAB has been contributing to uplifting the miseries of the poor and the needy communities facing multi-faceted social deprivation and long-held injustices.

Through various projects, the organization aims at ending poverty, and improving the lives and prospects of the destitute across Bangladesh. The head office of ASEAB is situated in the village of Khayerbagan, 10 kilometers from the district headquarters of Pabna, located in the catchment of the great river Padma.

In the last three decades, ASEAB played a significant role in transforming the lives of the people of Char areas of Pabna, where acute poverty, starvation, illiteracy, floods, river erosion, habitat loss, and a decline in cultivable land have been prevalent. In this context, ASEAB commits its resources at relieving individuals from the grip of enduring poverty and hunger. Since its inception ASEAB have covered more than 10 of 17 SDGs to mitigate social injustice, deprivation, and inequality across almost all the divisions of Bangladesh through different initiatives. As of 2023, ASEAB has served about a million beneficiaries and their families.

ASEAB has been working and affiliated with different national and international organizations and networks since its inception. The organization obtained registration with the NGO Affairs Bureau in 1995, the Trust Act in 2002, the Microcredit Regulatory Authority in 2008, and the Joint Stock Company in 2009.

SPONSOR A CHILD ENSURE A BRIGHT FUTURE

Overview of the Project

Sponsor a child project aims to provide comprehensive support to underprivileged children through a sponsorship plan. By matching sponsors with potential children, the project hopes to provide them with the resources, guidance, and chances they need to have a better future. This effort focuses on education as a catalyst for long-term positive change and strives to break the cycle of poverty that many impoverished children confront. It also takes care of the other necessities of their family lives like nutrition, food for family, better hygiene and health, behavioral education and so on. The sponsorship plan not only gives financial aid for education, but also mentorship and career coaching to assist these students in reaching their full potential. ASEAB is already running AEAB Shiksha Niketan, a school for underprivileged children of the Char area of Pabna. There are four Child Learning Centers operational at Kutupalang Rohingya camp.

We can make a huge difference in the lives of these youngsters and help them establish a better future for themselves and their communities, with your help.

Project Objective

The objective of this project is to find and encourage under privileged children and provide them the necessary materials and facilities for their secured future. Starting from education, this project is designed to ensure all other necessary components like nutrition, health, life skill development, career direction and opportunity, clothing etc. for proper upbringing. As, children are the future, taking care of them means taking care of the society as a whole.
